

Peste Suina Africana

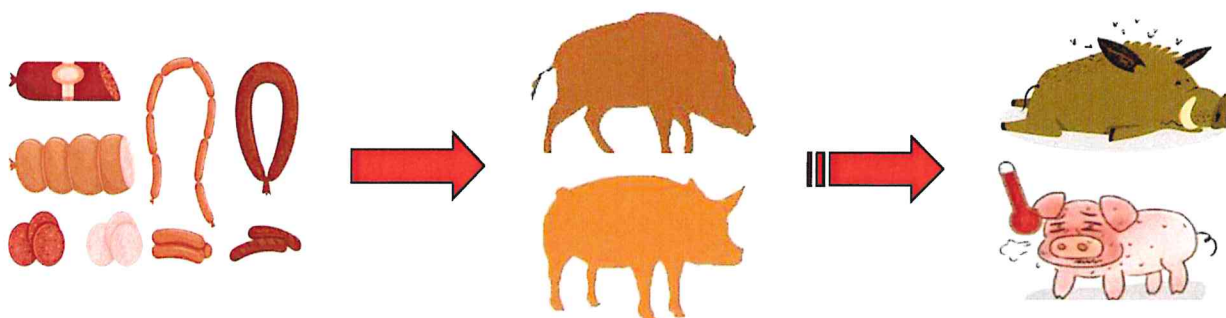

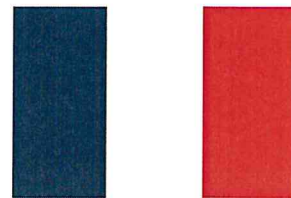

Gli avanzi di alimenti a base di carni suine fresche o stagionate, se lasciati nell'ambiente, possono rappresentare un grave rischio di trasmissione della malattia agli animali sani; pertanto **devono essere sempre smaltiti solo in contenitori chiusi per rifiuti!**

Peste Porcine Africaine

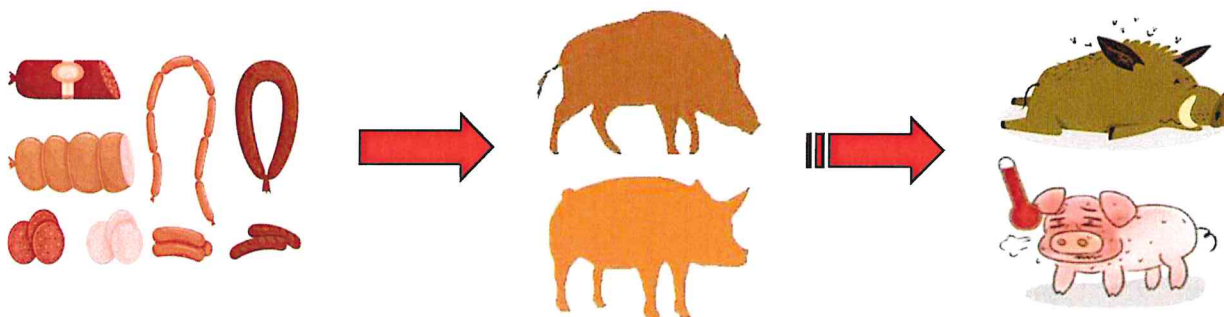

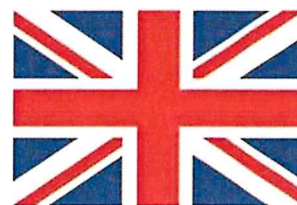

Les restes de viande de porc ou de charcuterie,
s'ils sont laissés dans l'environnement, peuvent
représenter un risque sérieux de transmission
de la maladie à des animaux sains; par conséquent,
ils doivent toujours être éliminés uniquement
dans des poubelles fermées!

African Swine Fever

Leftover staple foods from fresh or cured pork,
if left in the environment, can pose a serious risk
of disease transmission to healthy animals;
therefore they must only be disposed
in closed waste containers!
